Medical Advice

The Site does not provide medical advice. Eyetech's products are available only by prescription from a licensed health care professional. Like any printed material, this website may become out of date over time. This website is not designed to give specific medical advice and should not be relied on as doing so. EYETECH recommends that any user requiring medical advice should consult a physician or other medical professional.

Forward Looking Statements

This website may contain information which is forward-looking and involves risks and uncertainties that could cause actual results to differ materially from those reflected in the forward-looking statements. These risks and uncertainties include, without limitation, risks associated with the inherent uncertainty of pharmaceutical research, product development, clinical trials, clinical research, seeking regulatory approval and product commercialization, as well as the impact of competitive products, patents, product liability and third-party reimbursement risks associated with the pharmaceutical industry, and the other risks and uncertainties.

Product development involves a high degree of risk. Only a small number of research and development programs result in the commercialization of a product. Success in preclinical and early clinical trials does not ensure that later stage or large scale clinical trials will be successful. Many important factors affect EYETECH's ability to successfully develop and commercialize drugs, including the ability to obtain and maintain necessary patents and licenses, to demonstrate safety and/or efficacy of drug candidates at each stage of the clinical trial process, to overcome technical hurdles that may arise, to meet applicable regulatory standards, to receive required regulatory approvals, to be capable of producing drug candidates in commercial quantities at reasonable costs, to compete successfully against other products and to market products successfully. There can be no assurance EYETECH will be successful in its efforts to develop and commercialize new products.

The contents of this website do not purport to provide any financial, investment or professional advice. Nothing on the pages of this website shall be deemed to constitute the provision of financial, investment or professional advice in any way. Past performance of the price of EYETECH stock must not be relied on as a guide to future performance. No information contained on this website constitutes or shall be deemed to constitute an invitation to invest or otherwise deal in stock of EYETECH.

Should any visitor to this website make comments or ask questions through the feedback mechanisms located on this website, EYETECH shall have no obligation of any kind with regard to such information and EYETECH shall be free to reproduce, use, disclose and distribute the information to others without limitation.

We reserve the right to seek all remedies available at law and in equity for violations of the terms and conditions set forth in this website, including the right to block access from a particular Internet Address to the website.

Indemnification

You agree to indemnify, hold harmless, and defend EYETECH and its licensors, suppliers, officers, directors, employees, agents, affiliates, subsidiaries (collectively "Indemnified Parties") from and against any and all liability, loss, claim, damages, expense, or cost (including but not limited to attorneys' fees), incurred by or made against the Indemnified Parties in connection with any claim arising from or related to your use of this website, the placement, posting or transmission of any messages, information, software, content or other materials on or through this website by you or any breach or violation of these terms and conditions by you.
